

Bygg for Biologiske Basalfag (BBB) is situated behind Haukeland Hospital
Address: Jonas Lies vei 91, 5009 Bergen

Directions from the bus stop to BBB (see map below)

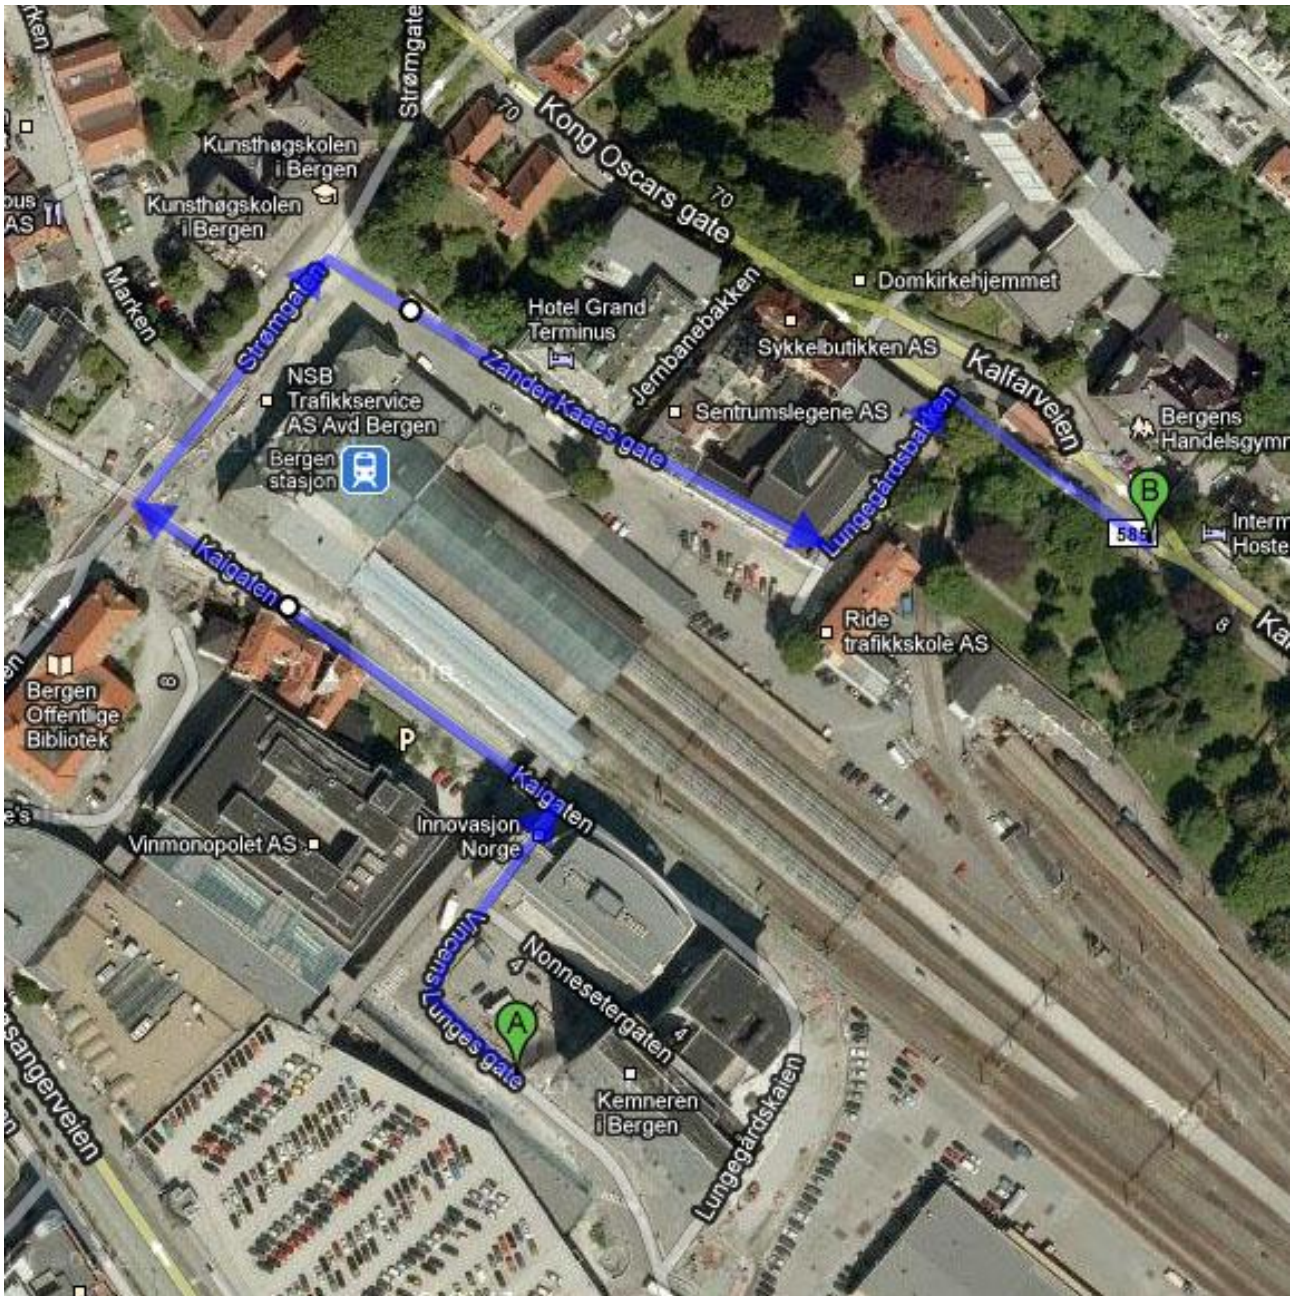

When you get off the bus turn left when coming from the town center (blue line) and follow the pedestrian hill toward the big, grey Haukeland building. Turn left again on the top and go straight up a quite steep road to the new building on the top. OBS! There are at the moment some construction work at the top, but by going as far as you get and turning to the right over a bike parking lot and into a short tunnel you will find your way.

From the BBB to the bus stop towards City centre follow the red line.

Coming from the airport:

Airport coach: Leaves from Bergen airport Flemland every 15 minutes to the bus station. Walk from there past the train station to the bus stop in the road Kalfarveien (see directions in the picture below). From there you can take the bus to the stop at Haukeland University Hospital called "Haukeland Nord" (see picture above).

Coming by taxi:

The address is Jonas Lies vei 91, Bygg for Basalbiologi. Not all taxi drivers find their way. To better explain the directions; BBB is situated behind the Haukeland Hospital central block and the Hospital Farmasi building. You need to follow (red line) the road past the entrance to Haukeland parking lot North, turn left and drive between the Hospital Farmasi building (brown) and the Lab Building (colorful) and then left again.
